

Quality Policy

Fulbeck Limited has the strategic objective of providing specialised products and manufacturing services for the Chemical Industries.

It is our intention to supply all our worldwide customers with products and manufacturing service which will satisfy their needs, both initially and over a reasonable period of time, at competitive prices.

We do this by;

- A) Fully developing our quality policy in order to meet customer requirements.
- B) Producing materials of consistent quality, meeting agreed specifications, and continuing to improve the effectiveness of the quality management system.
- C) Having regular meetings to establish and review quality policy.
- D) Employing capable well-trained personnel and communicating to them regarding the setting and achieving of our quality objectives.
- E) Reviewing the quality policy to ensure its continuing suitability.
